Thanks Alice, can we assume 9 to 11:30 a.m. on May 5 at your offices? I expect us to have 5-6 attendees and will provide names prior to the meeting. We will have a presentation as well, so I look forward to seeing one of your AV guys again.

As previously noted, hosting at Tetra Tech's office in Parsippany is certainly an option as well, although I am not sure how convenient for you or your team. NY works fine if we are able to wrap up prior to lunch.

Looks like May 5, 9 and 10 would work for us.

Hi Alice,

As follow-up to our discussion of a potential team meeting on PDI components later this month or early May, I took a quick look at my calendar and realized the earliest I will be available is the first week of May. Therefore if you don't mind checking for potential dates convenient for your team the weeks of May 1st or May 8th we'll see what matches up with our side and go from there.

Thanks!

Juan
